Gomez's Manifesto Is Expected to Issue Today.

Havana, May 16.-The manifesto which General Maximo Gomez is preparing to issue will not only review his own position as to the payment of the Cuban army. but probably will direct the forces to disband. Its issuance is expected tomorrow. Colonel Carlos Cespedes, who is engaged in the supervision of copying the manifesto, declines to give any information as to its contents, further than to say that Gomez recounts his faithful labors for Cuba; asserts that he has no ambition other than to free Cuba, and calls upon all loyal Cubans to accept the money given by the United States and to retu: to their peaceful pursuits, in order to show by building up the country that they are citizens in the truest sense. The manifesto will also nitude, according to Cespedes, to the difficulty regarding the surrender of the arms, and will say that General Gomez has arranged with Governor General Brooks that the mayors of the various cities shall be repositories for the same. The manifesto will call upon all Cubans to display real patriotism by taying down their arms and taking up

agricultural implements. Following its publication, Governor General Brooke will issue a modified roder eliminating the necessity for the participation of any Cuban commissioner in the distribution of the \$3,000,000.
